Docket No. 98N-1265  
Food and Drug Administration  
5600 Fishers Lane  
Rockville, MD. 20857

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: I am concerned that the FDA is wanting to restrict my ability to acquire natural compounds that I have only been able to purchase from an out-of-state pharmacy. I am not sure how I will attain the natural hormone replacement therapy that I am presently using successfully should the FDA choose to regulate across state line shipping. The hormone replacement therapy available to me through existing channels has been totally unsuccessful. Please reconsider.
